Easy to use & explore

Fresha's reminders make life so much easier. I also found a few good barbershops that I didn't know existed.

Nice budget friendly stay if you come in cab, not on your own car...Everything was smooth since check in, even though there were some delay in getting all my rooms on time....Not having the vehicle parking is a complete let down as the road was very busy and crowded most of the time...

Room looked alright but no towels and the floor wasn't cleaned properly and was sticky, although they gave a free water bottle and the service was good

After Clicking on book now button a new booking screen should open (Reference : Treatwell website checkout page)

* Add Select service button on top of select employee similar to select employee button

* After clicking on select service button a Drop down should come where customer can select the service and selected service should appear in my basket / cart screen

The screenshot shows the Treatwell booking interface. At the top, there's a 'Select service' dropdown menu. Below it, a 'Select employee' dropdown menu is visible. To the right, the 'My basket' section displays 'Comfortzone Express Facial' for '30 mins'. Below the basket, there's a red button labeled 'Checkout'. On the left, a calendar for February shows dates from 02 to 08. Below the calendar, a list of appointment slots is shown with times and prices. The 13:30 slot is highlighted with a red box. Annotations in green boxes provide instructions: one points to the 'Select service' dropdown, another points to the 'My basket' section, and a third points to the red box around the 13:30 slot.
